## EDUCATION

---

**Panipat Institute of Engineering and Technology**  
Computer Science Bachelors  
CGPA: 7.4

Haryana, India  
2021 - 2025

## SKILLS

---

Programming Languages: C, C++, HTML, CSS, JavaScript  
Libraries/Frameworks: JavaScript, React, Bootstrap  
Tools / Platforms: VS Code  
Databases: MongoDB

## PROJECTS / OPEN-SOURCE

---

### Music Player Application | [Link](#)

*HTML, CSS*

This Music Player Application was built using HTML, CSS without the use of any framework like Bootstrap. This webpage is like clone of Spotify and other popular music application and webpage is completely responsive in nature.

### Inventory Management Application | [Link](#)

*NodeJS, Express*

The Project is basically for inventory management which stores product. It is like the backend system of E-Commerce application like Amazon i.e there is a seller side of application where seller can register, log in and can upload their new products or manage their products. MVC pattern is used to build this application.

### E-Commerce APIs | [Link](#)

*JavaScript, NodeJS, ExpressJS*

This is an E-Commerce project using REST API.

Here we created multiple APIs to serve all the user scenarios, all the use cases for E-commerce clients

### Movie App Project | [Link](#)

*JavaScript, React*

This Movie-App is built using React.

User can add a movie to cart and add a movie to favourite and can give rating to any movie.

## CERTIFICATIONS

---

- Introduction to C++ - **Coding Ninjas**
- Data Structures in C++ - **Coding Ninjas**
- Front End Web Development - **Coding Ninjas**
- Back End Web Development - **Coding Ninjas**

## HONORS & AWARDS

---

- Got Certificate of Excellence in Data Structures and Algorithms in C++ from Coding Ninjas.
- Won goodies from Coding Ninjas for having best performance in weekly contest.
